## Subject Indexing in EDS

# ENHANCED SUBJECT PRECISION

- Boosts relevance score of records that include the exact terms in mapped vocabularies (Subject Field).

# ENHANCED SUBJECT PRECISION

- Represents the Evolution of Discovery
- First generation discovery brings content from many different specialized databases into a single interface searchable by keyword.
- **Next generation discovery is truly intelligent:**  
It leverages the strengths of these specialized databases (content, metadata, subject indexing) synergistically to enhance discovery.

### Research Starter: Global W

**Global warming** is the term applied to the rise in average air temperatures. This rise in temperatures is due to changes in climate and weather patterns. It is the result of an imbalance between incoming solar radiation and outgoing terrestrial radiation. The Earth's energy budget is the balance between incoming solar radiation and outgoing terrestrial radiation. The Earth's energy budget is the balance between incoming solar radiation and outgoing terrestrial radiation. ### Research Starter: Global Warming.

**Global warming** is the term applied specifically to indicate rising average global air temperatures. This rise in temperature has the potential to cause drastic changes in climate and weather patterns worldwide by disrupting the equilibrium between incoming solar energy and the thermal energy that is reradiated away from the surface.... **Related: Climate change and global warming.**

Climate is characterized by mean air temperature, humidity, winds, precipitation, and frequency of extreme weather events over a lengthy period of time, at least thirty years. Global warming is an example of climate change, and so are increases in the magnitude or frequency of floods and droughts experienced in many parts of the world during the past several decades. Climate change includes both natural variability and

anthropogenic changes.... [More](#). Salem Press Encyclopedia of Science, January, 2015. 2p.

The screenshot shows a window titled "Customisation Manager" with a "Save Changes" button in the top right corner. The main area is a code editor with a dark background and light text, containing the following JavaScript code:

```
1 jQuery('.table-striped').before('<div id="resultListControl"></div>');
2 jQuery('body').append('<link rel="stylesheet" type="text/css" href="http
   ://gss.ebscohost.com/alvet/Koha/recom.css">');
3
4 jQuery.getScript('http://widgets.ebscohost.com/prod/simplekey/recom/recom
   .js', function (data, textStatus, jqxhr) {
5     Recommender(jQuery('#translControl1').val(), 'en', 'https://gss
     .ebscohost.com/alvet/Koha/', 'json', 'placardb', '3', '1', '0',
     'php');
6 });
```

At the bottom right of the window is a "Close" button.

- Upload JSON File to a Web Server.
- Place JS code snippet into custom.js via Plugin admin.
- Save Changes.
