

ELLAKTOR GROUP

ELLAKTOR is the largest infrastructure group in Greece and one of the leading in Southeastern Europe with long-term investments in key fields, including construction, concessions, waste management, renewable energy and real estate development. With operations in **29** countries and nearly **6,000** employees, the company generates **€1.3 billion** in revenues (2019) and is ranked **83rd** among the top 100 global manufacturing groups (Global Powers of Construction 2018, Deloitte).

Combining **70** years of expertise in the most complex and demanding projects with the latest technologies, **ELLAKTOR** breathes life into projects that accelerate growth and improve the quality of life, while providing a safe and fair working environment, reducing the impact of its activities on the environment, and supporting the communities in which it operates.

21 years after the triple merger of Elliniki Technodomiki, AKTOR and TEV that created **ELLAKTOR**, the Group is redefined by setting modern corporate governance and sustainable development principles as a cornerstone and gives priority to enhancing Group operations, to reorganizing capital structure and to further capitalizing on synergies, in order to provide increased added value to its shareholders, its employees and the Greek economy.

The Group's main subsidiaries in brief:

AKTOR, the construction arm and biggest subsidiary with emblematic projects (eg. Gold Line Metro of Doha, Qatar, new Acropolis Museum, Rion-Antirion Bridge).

AKTOR CONCESSIONS, the largest concessions company in Greece with stakes in major motorways (eg. Attiki Odos - 65.8%, Moreas Motorway - 71.67%) and concessionaire of the Alimos Marina.

HELECTOR, a company that leads the path towards circular economy in Southeast Europe, with experience in modern waste treatment plants, alternative fuel production and biogas & biomass exploitation.

ELLAKTOR/Renewable Energy Sources Division, the parent company of the Group and 2nd largest wind energy producer in Greece and a key contributor to Greece's decarbonisation of electricity generation.

REDS, a leading real estate development company, having developed and operating Smart Park.
