Με το **Arvekap[®]** μπορείς να αλλάξεις θέμα συζήτησης

Arvekap[®] 22.5mg
triptorelin

Έχεις τον **ΕΛΕΓΧΟ**
του καρκίνου
του προστάτη

ΜΙΛΗΣΕ για όσα
έχουν αξία
για τον άνδρα

Arvekap[®]: Προσφέρει τη δυνατότητα υποστήριξης και άλλων αναγκών του άνδρα.*

Οι περιεκτικότητες 1, 3 και 6 μηνών του Arvekap[®] ήταν καλά ανεκτές¹⁻⁷
και μείωσαν σημαντικά τα συμπτώματα από το Κατώτερο
Ουροποιητικό Σύστημα (LUTS) σε διάστημα 48 εβδομάδων.⁸

Η 6μηνη μορφή του Arvekap[®], ανταποκρίνεται στη συχνότητα
των ενέσεων που προτιμούν οι άνδρες με καρκίνο του προστάτη.⁹

*Η μείωση του αριθμού των ενέσεων λόγω της πιλοποίησης στην 6μηνη μορφή του Arvekap από σκεύασμα αγωνιστή LHRH μηνιαίας ή 3μηνιαίας διάρκειας, οδήγησε σε εξοικονόμηση χρόνου αντίστοιχου με 35,1 λεπτά ανά ασθενή (n=41).³

Background

New developments in surgical techniques and advances in technologies and instrumentation are continuously emerging but their implementation in routine practice is often restricted. Reasons for this include: a demanding learning curve for each one of these treatments, difficulties to select which treatment fits to the needs of the individual department and the limited financial resources for the purchase of lasers and necessary equipment.

The goal of this meeting is to present these enucleation techniques to our colleagues and make urologists familiar with these novel therapies.

Program Description

The objective of the Exelixis in prostate enucleation meeting is to provide an update on the management of BPH based on current guidelines and present the different techniques of prostate enucleation. Over the course of these two days a panel of international experts in these different surgical techniques will discuss and share their experience in an interactive way.

The Exelixis in Prostate Enucleation program will include presentations, hands-on training with simulators and live surgery sessions. In addition, all these sessions will be available by live streaming to anyone interested to participate.

Learning objectives

At the end of the meeting, participants should be able to:

- Understand the differences of available energy sources for enucleation
- Identify 2 lobe, 3 lobe and En-Bloc techniques in enucleation
- Select the right technique for the individual patient
- Recall the tips and tricks of morcellation

PROGRAM AT-A-GLANCE

Friday 23rd of September 2022

17:00 - 17:30

Introduction

Chair: **S. Gravas, A. Andreou, A. Bekos**

17:00 – 17:15

Welcome - Implementation of the HoLEP technique in Greece

A. Andreou

17:15 – 17:30

EAU Guidelines for BPO surgical treatment. What's the place of the prostate enucleation?

S. Gravas

17.30 – 19:30

Description of surgical techniques. Tips and tricks

Chair: **S. Gravas, A. Andreou, A. Bekos**

HoLEP

F. Gomez Sancha

ThuLEP

J.-B. Roche

GreenLEP

V. Misrai

BipoLEP

P. Sountoulidis

19.30 - 21.00

Simulator Hands-On training, 20 participants

Training in 2 different simulators for HoLEP and Greenlight. Every participant will have 30 min of training.

Trainers: **A. Andreou, A. Bekos, P. Sountoulidis**

Saturday 24th of September

08:00 – 12:00

Live Cases

Chair: **S. Gravas, A. Bekos**

5 of the participants in rotation will attend the operation in the operating room

08:00 - 10:00

Live case of HoLEP

Surgeon: **F. Gomez Sancha**

Discussion about the 1st case

10:00 - 12:00

Live case of ThuLEP

Surgeon: **J.-B. Roche**

Discussion about the 2nd case

12:00 – 14:00

Simulator training and Lunch Break

Chair: **S. Gravas, A. Bekos**

5 of the participants in rotation will attend the operation in the operating room

14:00 - 18:00

Live Cases

Chair: **S. Gravas, A. Andreou**

5 of the participants in rotation will attend the operation in the operating room

14:00 - 16:00

Live case of GreenLEP

Surgeon: **V. Misrai**

Discussion about 3d case

16:00 - 18:00

Live case of BipoleP

Surgeon: **A. Meneghini**

18:00 - 19:00

Discussion-Difficult cases-Limits of the endoscopic enucleation

Chair: **A. Andreou, S. Gravas**

Result of the voting “Which technique do you prefer?”

19:00

End of the meeting

FACULTY LIST

Andreas Andreou Urologist, Head of the 2nd Urology Department, Interbalkan Medical Center, Thessaloniki, Greece

Athanasios Bekos Urologist Interbalkan Medical Center, Thessaloniki, Greece

Fernando Gomez Sancha Head of the Department of Urology and Robotic Surgery, ICUA - Clinica CEMTRO, Madrid, Spain

Stavros Gravas Professor of Urology, University of Cyprus

Agostino Meneghini Chief of Department of Urology, Dolo Hospital AULSS 3 Serenissima, Venice, Italy

Vincent Misrai Consultant at Clinique Pasteur, Toulouse, France
